BRIEFING	Tick here if achieved												
<i>What? Objective - performance requirements *</i>													
Why? Reason for learning the skill													
How to perform the skill and signals													
Where? Position & flow of the skill													
<i>Key safety aspects *</i>													
DEMONSTRATION - confined water only													
<i>Met performance requirement of skill *</i>													
Demonstrated sub steps of skill													
Demonstration visible to all students													
Effective use of signals													
Slow fluid delivery - looked easy													
CONTROL & ORGANISATION													
<i>Safety was maintained at all times *</i>													
Time used effectively													
Effective organisation													
Used assistants effectively													
Positive reinforcement given													
PROBLEM SOLVING													
<i>Recognised all problems *</i>													
<i>Appropriate &amp; timely response (calm, gentle) *</i>													
Corrected student problems													
Student asked to repeat the skill													
Reinforced corrections after the skill repeated													
DEBRIEFING													
Positive reinforcement specific to the skill													
Problems identified													
Suggestions for improvement													
Skill Objective - performance requirements													
Why? Reason for the skill and its purpose													
<b>TOTAL SCORE -----&gt;</b>													

SCORES AND PASS MARKS			
<i>Overall FAIL will result from unsafe information, inappropriate conduct or failing to achieve any item with an asterisk (*)</i>			
Total score = the ticks per column. Candidate must score a minimum of 3 in each section			
An IT must score within 2 points of the control score when evaluating			
Minimum scores to pass evaluation	Instructor	Instructor Trainer	Maximum Score
Confined Water	18	20	25
Open Water (Demonstration section not used)	15	17	20
